

I am writing in support of our local radio station, K-Love. It is our understanding that they may not be able to continue broadcasting due to changes with the LPFM. We need the FM translator in order to hear this wonderful Christian radio music. It is so calming to hear commercial free christian music while commuting to work, or after a stressful day with the kids. If I didn't have this station, due to the LPFM, or if others around me were to do without, I would think there would be a lot more stress in our lives. If not for K-Love, people would not be hearing the word of the Lord daily, or being told about Christian marriage seminars in our area, or having the opportunity to have hundreds of thousands of listeners pray for the country and our neighbors. Please do not take this service away from our community. We'll be praying for you.
